Dear Parent,

The music program at your school is a participating member of Music-COMP, Music Composition Online Mentoring Program. This is a nationally acclaimed non-profit organization supporting music composition for students. One of the many benefits is a password protected online composition mentoring forum. Music-COMP hires professional composer mentors to review submitted student compositions. Mentors are carefully selected and trained to guide students to achieve their intentions and expand their thinking.

Your child has expressed an interest in the online mentoring process. If you approve, sign and return the bottom of this form to your child's teacher. The teacher will provide your child with an individual login. Only students, teachers, professional musicians and composers and selected college music education students will be able to view and comment on the work. Each teacher has the power to review and approve students' posts before they are shared. Individual teachers may also allow an individual student to post on his/her own once they demonstrate good practice.

*For more project information, view the following at our website - [music-comp.org](http://music-comp.org)*

- Performances tab for previous audio recordings and upcoming events
- Composer Mentor bios
- Resources for composition for all
- Fund raising info. *(We rely on individual and business contributions to supplement the school fees and grants.)*

I will allow my child to participate in the online mentoring program for music composition with Music-COMP. I understand this is a password protected website. Teacher members issue logins to their interested students to post compositions in progress as well as view work and mentor comments regarding all student work.
